How often of late has the hand of the angel of death come down in our midst and stricken the young, the middle-aged, and the old. And again to-day we are called upon to chronicle the passing away of another strong, stalwart man, in the very prime of life.

J. B. Frank Stigers, one of the best known and most worthy citizens of the Benson precinct, died at his home, in this county, on Sunday evening last, after a painful illness of three weeks duration, of neuralgia of the bowels, aged about 57 years. Mr. Stigers was a good man in word and deed, having been a member of the Mt. Zion Christian Church for many years. He was always ready to show his colors when called upon, and was found upon the right side of all questions looking to the best interests of the community.

Truly that community is bereft. Mr. Stigers was a member of Hiram Lodge, No. 4, A. Y. M., and was buried by the fraternity on Monday last, in the family burying ground. He leaves a wife and three children to mourn his loss.

Mrs. W. G. Mandelr has commenced the erection of a brick residence upon her lot on An street between Clinton and Mero.

A singular and to us a disgusting habit is getting greatly in vogue in these latter days. And that is, in nearly every obituary you see written about a man, the writer after giving all due praise as a man, all due credit for having lived an honest life, will wind up his eulogy with the remark that "he was always a consistent Democrat (or Republican as the case may be,) and never scratched a ticket," as though that were the capstone and the *ne plus ultra* of all.

Now, friends, if that is the only hope of a man's being elected to "go in and sit down at the marriage feast of the Lamb," his chances are very slim indeed. If your soul be not bathed in the blood of Christ, all the voting of unscratched tickets will not avail.

Let's see if we can't let politics alone for a while when we come to deal with the matters of eternity.

We are glad to say that the Steamer Grace Morris, Capt. Preston, is doing a booming business this season. Her officers and owners are all clever and reliable gentlemen.

Our friend Wm. Bedford, Esq., of the Forks of Elkhorn, has a fine three-year old filly which is said to promise to be a phenomenal trotter.

Letter from Indiana.

INDIANAPOLIS, IND.,
May 24, 1887.

Editor Roundabout,
Frankfort, Ky.

DEAR SIR:—As the P. G. & F. R. R. proposition is about to be submitted to the county, it is well to urge upon the citizens of the county, as well as the city of Frankfort, the importance of making this subscription. The county can afford to give *any* railroad that will run through its center and give closer connection with Cincinnati, \$200,000, and get its money back in two years. Valparaiso, Ind., with only 4,400 population, has three trunk lines, "Ft. Wayne," "Nickle Plate," and Grand Trunk, and is about to subscribe \$75,000 to get a road to Joliet, Illinois. How is it that the counties and townships north of the Ohio river can afford to give such a bonus to railroads in the hands of strangers? Because of the increase of the facilities for marketing their small produce, such as eggs, chickens, butter and garden truck. The great difference to be noticed in the value of these products between Indiana and Kentucky is forced upon me every day. It is like eating gold to eat chickens in this country. All are sold by the pound, and the much abused old chickens cost from 45 to 65 cents each, when dressed. Spring chicks can never be had for less than 35 to 45 cents each. With a railroad making a 3½ hours' connection with Cincinnati, Franklin county would never sell another dozen chickens for \$1.75. Her blackberries would never be-

come a food for "jail birds," or wither and waste on the bush. These matters seem "trifles light as air," but it is that which makes the difference between Kentucky and the North. Most certainly, if these products are enhanced in the next twelve months 40 to 50 per cent., and the demand greater than the supply, it is only a question of a few months before the farmer gets back his railroad tax, no matter how big, and in this instance he has the railroad in his own hands and his own property, not in the ownership and control of a stranger. I threw four years of my life away attempting to manufacture in Franklin county, paid a freight tariff as high as 60 cents per hundred on some goods for a transportation of 65 miles. Unless you invite competition you cannot get it. This point can be illustrated by giving an incident before the Inter-State law took effect.

A country miller's tariff was 13 cents per hundred; he got a special of 9 cents per hundred. I went to the general freight agent and told him that we had a car load of stuff at that point and said I would not handle it unless he gave me some inducement. He replied: "You have been giving me considerable freight and I will treat you right. Make it 4 cents per hundred." Could that ever have been accomplished if we had only one line for receiving or shipping our goods?

Is not the P. G. & F. railroad "for the people, of the people, by the people?" These directors and officers have no private contracts to make or axes to grind.

They are working to build up the county, and thereby enable themselves and children to live and die as air," but it is that which makes the difference between Kentucky and the North. Most certainly, if these products are enhanced in the next twelve months 40 to 50 per cent., and the demand greater than the supply, it is only a question of a few months before the farmer gets back his railroad tax, no matter how big, and in this instance he has the railroad in his own hands and his own property, not in the ownership and control of a stranger. I threw four years of my life away attempting to manufacture in Franklin county, paid a freight tariff as high as 60 cents per hundred on some goods for a transportation of 65 miles. Unless you invite competition you cannot get it. This point can be illustrated by giving an incident before the Inter-State law took effect.

W. R. WATSON.

The attention of contractors is called to the advertisement of the building committee of the United Brothers of Friendship in this issue.

Hon. J. M. Unthank has resigned his place as Deputy Register of the Land office, and Mr. Hal. Corbett has been appointed to the vacancy. Mr. Unthank will return to the mountains to reside.

Messrs. W. J. & W. H. Lewis, of Woodlake, this county, received on Saturday, from California, the celebrated stallion, Shawmut, record 2:19 1/4, and will farm him during the next three years. This fine trotter is quite an acquisition to the stud of Kentucky.

Four of the ROUNDABOUT force went fishing Monday, at Stedman's dam on Elkhorn. "Lengthy" says he caught a "five pound bass," but from the best information it is believed that a six-inch kitten was the best the crowd could muster on their return. They left without bait and went to a doctor's shop in the Forks to get some, but judging from their ill luck, it did not make the fish sick enough to bite.

Our Forks correspondent, several weeks ago, stated that a large hole had broken through the bottom of the fine large pond of Mr. John C. Noel, at Woodlake, and a large quantity of water had run out. We are informed by Mr. Noel that the hole was in the edge of the pond, at low water mark, that it was easily stopped, and the pond is now full again. This is one of the finest fish ponds in the county, and we are glad to learn that it was not materially damaged.

The building of the Frankfort, Paris & Georgetown railroad will necessitate the construction of a line to Lawrenceburg and to Louisville. This line will go up Benson valley and thence diverge southward and westward. The Benson and Bridgeport precincts will have a new line of railroad at their very doors, and stations in both precincts. Citizens of either precinct can step on the cars and reach Frankfort in a few moments and for less money than the cost of toll. So, he can have a short route to Louisville that will save him 12 to 15 miles travel, and nearly one dollar in cost of passage each trip.

It appears that the W. C. T. U. of Lexington has been meeting at the Court-house in that city for some time past. The Liquor Dealers Protective Association of that city sent a protest to the County Judge against the use of the Court-house by the W. C. T. U. on the ground that the Union was attempting to destroy the business of those who had been taxed heavily to build the Court-house. The County Judge issued an order stating that Wednesday night should be the last meeting to be held in the Court-house by the Union. The Union then formed themselves into a Prohibition Political Club, advocating the election of the Prohibition State ticket, and demanded that they be allowed the use of the Court-house with just the same freedom that the Democratic and Republican parties are allowed it. It is generally conceded that the "Prohibs" have "kinder got the call on 'em in this game of bluff."

The issue of the Graphic News of May 14th contains illustrations of the principal edifices and business houses in the city of Nashville, and also portraits of a number of the more prominent citizens. Among the portraits given is one of Wm. M. Long, a "Frankfort boy," and a nephew of F. L. McChesney, of this city. Mr. Long is the head of the firm of Long, Franklin & Nash, the largest real estate firm in Nashville, and the News says has done much towards the prosperity of the city.—*Paris Kentuckian-Citizen*

The School Trustees are authorized by law to provide a course of study for the public schools of the town and are required to teach the several branches included in it. The trustees alone have the right to decide what shall or shall not be taught in that institution. Should a parent object to any particular study embraced in the course, he should apply to the trustees and ask to have his children excused, giving his reasons therefor in writing. If the trustees refuse to grant his request, it is then optional with him whether he will yield to the requirement or withdraw his children from the school.—*Roundabout*

Mr. Editor, we must beg leave to differ with you on the above matter. To deny to any patron of the public school, who pays heavily in taxes to support it, the right to omit any branch of study from his child's education, is to impose a burden rather than a blessing. The parent is the best judge of his child's health and necessities, and it is unreasonable to suppose that any parent will deny to his child all educational advantages not precluded upon sound and satisfactory grounds. There isn't a college in the land, so far as we know, at which a parent can not enter his child for any branch of study he pleases. The pupil cannot graduate unless he studies the regular course, but he is not shut out of college for all that.

We do not think it desirable to have Jesuitic methods in the Frankfort Public School. It should be conducted on the broadest principles for the "good of the many," and consistent with the most efficient system of discipline and management. PATRON.

NO SPECULATION, But a Safe Investment.

"Our doubts are traitors,
And make us lose the good we oft might win,
By fearing to attempt."

We often hear the lamentations of those who visited St. Paul six years ago and failed to invest, because they thought it would not grow much more. But stronger still will be the vain regrets of those who have a little money now, and fail to invest it here, because they have been so unfortunate as not to see St. Paul. The country is just beginning to realize what St. Paul has done in late years, and what a future it has before it. There is no city in the Union with its size, business and future prospects, where property is near as cheap.

The following comparative statement of real estate values, obtained from leading conservative agencies in the respective cities, during April, 1887, speaks for itself.

	Population.	Highest Price per front Foot.	Business Property.	Residence.	Highest Adjoining Acreage per acre.
Chicago	750,000	\$6,000	\$700	\$7,000	
Buffalo	240,000	8,000	850	2,000	
Cleveland	227,000	8,500	800	1,500	
Milwaukee	165,000	1,500	200	8,000	
Detroit	158,000	2,000	800	3,000	
Minneapolis	140,000	2,000	800	3,500	
St. Paul	140,000	1,200	300	2,000	
Kansas City	105,000	8,500	800	5,000	
Indianapolis	90,000	800	150	800	
Omaha	78,000	1,200	150	5,500	
Toledo	70,000	1,100	100	1,000	
Duluth	28,000	1,000	100	1,500	

The "Twin Cities," St. Paul and Minneapolis are only ten miles apart from centre to centre; have only about five miles of a partly vacant space between them, and have a common corporation line between them therein. These cities, which in 1880 had only 41,000 and 46,000 inhabitants respectively, have now 140,000, possibly nearer 150,000 each, and the tide of immigration is pouring in faster than ever. Considerably more than one-third of the immigration of this country finds a home in the territory immediately tributary to

ST. PAUL'S IMMENSE TRADE.

Nineteen railroads run into the city, ten of these being big trunk lines, making it

The Third Railroad Centre in the United States.

The completion this year of the Minneapolis, Sault Ste Marie and Atlantic Road will give it direct communication with New York, independent of Chicago, and will put it one hundred miles nearer the Atlantic coast.

At the head of Navigation on the Mississippi.

And only one hundred miles from Lake Superior, it can laugh at the terrors of the Inter-State Commerce Law. The rich country all around is filling up more and more, and new railroads are springing into existence with wonderful rapidity, making still larger fields for the already immense wholesale trade. Its great manufactures are daily increasing, and it is rapidly becoming the centre of the

STOCK-YARD AND PACKING INDUSTRIES.

There are more millionaires here than in any city of twice its size on the Continent. All the causes that have for the last five years operated to make St. Paul a great city, are working more strongly than ever, and being in the centre of the richest and most rapidly developing part of the United States, St. Paul and Minneapolis

WILL SOON BE ONE IMMENSE CITY.

"By every argument that can be drawn from the past, by every present material condition, by the certain promise of the city's situation and surroundings, by every proof which has been tried in the experience of city growth, St. Paul feels assured that the era of prosperity now upon the city is to witness changes more astounding and more satisfying than those which have already made it the wonder and admiration of all, whose good fortune it has been to visit the city and in a measure become acquainted with her institutions."

We have a large number of Southern customers, and all their investments have either been sold out at a large profit, in some cases

A Word to the Magistrates.

To-day the magistrates of Franklin county assemble to consider the question of submitting to the people the proposition to vote a subscription to the capital stock of the Frankfort, Paris & Georgetown railroad. There is no responsibility to-day upon the magistrates to vote this subscription.

The meeting is not for that purpose. The magistrates will consider simply whether the people will be permitted to express their will on the matter. It is in that sense a test of the pre-eminent right of popular government. Whatever may be the individual views of any magistrate, he is not concluded or bound by his vote to-day—except so far as it may deny a people's right. The simple question is, when a very respectable body of citizens petition the magistrates, under sanction of law, to submit to the people whether they are willing to engage in a definite enterprise, will the magistrates allow the people to determine the matter for themselves? If the people want the railroad, is there any good reason why they should not be permitted to say so. If they do not want it, is there any good reason why they should be denied an expression of their dissent?

A good many thousand dollars have been voted by the magistrates to building turnpikes throughout the county. A popular vote was not taken on the subject. The magistrates, feeling and believing that these turnpikes would benefit the county, took the responsibility of voting aid to them from the public treasury. This responsibility was ten-fold greater than is asked to be exercised in the present case. Nay, it was an hundred times greater.

When the matter comes before the people to decide whether they are in favor of having the proposed railroad built upon the conditions submitted by those especially charged with the enterprise—the opportunity will be afforded for every man to express his views by his vote. The ballot box—expressing the public will—must decide the matter. It is right that it should so decide, or else popular government is merely a name.

If any magistrate feels that he cannot support the proposition that be submitted, it should not hinder him from voting to submit it. In authorizing a vote to be taken at the polls, he is removing the responsibility from himself and placing it where it belongs of right. Is any magistrate afraid to trust the people? We hope not.

It is the best opportunity Franklin county has ever had to get a railroad. It may be the last. It may be the turning point in the life of the county. It may be the very time and the very hour when we, as a people, are to go forward, or to go backward. The signs all demonstrate that it is the hour. We are one people. What injures one class of citizens injures all. What benefits one class benefits all. Surely, in this crisis, the people themselves ought to decide their destiny.

We appeal to the magistrates to look at the matter, not as a sentiment, but in a business way. If the proposition were to submit to the people the question of voting aid to turnpikes, would any magistrate refuse? And yet, aid to

turnpikes is not a stock investment, upon which the county can realize a direct profit. We honestly believe every share of stock in the proposed railroad will be worth dollar for dollar.

A few years ago the fence in front of the public school lot was moved back six or seven feet, and the ground surrendered to the city for public purposes. It is understood that this was done upon condition that the city would construct and keep in repair a good sidewalk there. The school-house and grounds, and everything pertaining to them, belong in common to the people of Frankfort, and therefore her citizens are all alike interested in whatever may contribute to the convenience, comfort and safety of the children and others who must pass that way. The old sidewalk is worn out, and no longer entirely safe. Certainly no member of the Board of Councilmen would have a child or any one else injured there for many times the cost of a new sidewalk.

A rich treat it was for the pupils of the higher department of the public school last Thursday morning. "Respiration" was the subject, and Dr. James was particularly happy in his discussion. The structure of the organs in breathing and their connection with other organs of the body were so admirably explained and so accurately illustrated, by drawings on the blackboard, that no one could fail to understand. How important it is to the health of the body that we should breathe plenty of fresh, pure air, and take proper exercise to promote full respiration, was so thoroughly impressed on the minds of the scholars that they will not be apt to forget it very soon.

In the St. Paul addition to Kansas City, Missouri, there is a street called Frankfort avenue, named for this city. The property purchased by the syndicate of our citizens, of which Dr. T. H. Hudson is the president, lies upon this street. Ten acres were purchased by the syndicate last June at \$1,000 per acre, and is now worth \$3,000 per acre. Dr. Hudson expects to be in this city within the next ten days with a proposition superior to the one accepted by the syndicate a year ago.

The closing exercises of the lower grades of the school will take place on the evening of the previous Friday, June 3c. All friends of the institution are invited to be present on the occasion of each entertainment.

The teachers of the public school had the pleasure of listening, last Tuesday afternoon, to another very instructive lecture from Dr. Sam. E. James. The subject was "Digestion." The organs involved were described and the process explained in the most scholarly manner.

Religious.

The ordinance of baptism was administered to eight persons at the Baptist Church on Monday night. There are quite a large number of others yet to be baptized.

Our whole community seems to be stirred and aroused to think of religious matters by the meetings conducted by Dr. Wharton.

God grant that still larger blessings may be poured out upon our people.

We are rejoiced to be able to state that the two General Assemblies of the Presbyterian Church have appointed conference committees to make arrangements for the reunion of the two bodies. We are enabled to make this announcement by reason of a dispatch received by Mr. E. L. Samuel from Dr. Blayney, at Omaha. May God greatly bless this reunion.

The revival services at the Baptist Church continue with increasing interest and power. The large audience room is packed with a deeply solemn and interested audience every service, many hundreds not being able to gain admittance.

Dr. Wharton delivers his message from the Master in tender and simple language, so much so that any child can understand it, without any of the peculiar eccentricities of the modern evangelist.

The whole community is being awakened and aroused, and many who have never cared anything for these sacred matters are stopping to listen, being convinced and converted, and taking their stand openly with God's people.

The results of the meeting are not being confined to one church or denomination, but are reaching out into the other churches, and those who are converted go to the church of their choice.

We heartily rejoice in this, and earnestly hope the good work may be much more enlarged and extended.

To this end let all Christians labor and pray.

Chronic Rheumatism Cured.

Swift's Specific cured me of chronic rheumatism which had troubled me for fifteen years. I had taken every kind of medicine nearly that is advertised for rheumatism, but none did me near so much good as S. S. S. Last spring I took about half dozen large bottles, and from that day I have not been troubled with rheumatism. My appetite was improved by your medicine and my digestion strengthened. S. S. S. is one of the best blood medicines in the world. Yours gratefully, J. T. BATES, Columbia, Tenn., March 2, 1887.

A Marvelous Cure of Cancer.

My wife has been down two years with an abscess in her side. Last December she commenced using S. S. S. When she began its use she was nothing but a skeleton, had no appetite and was feeling weak and very miserable. To-day she is a new woman. Her appetite is good, her spirits revived. She is as stout as she was before she was taken sick two years ago. She can eat anything, and she to-day thinks S. S. S. is the greatest medicine on earth. It has simply raised her from a two years' sick bed, put flesh on her bones and life in her heart. Yours gratefully, J. T. BATES, Columbia, Tenn., March 2, 1887.

Couldn't Hear It Thunder.

An interesting letter from Mr. John W. Weeks, superintendent of DeKalb Pauper Home:

From a feeling of gratitude and a desire to benefit others, I voluntarily make this statement. I have great reason to be thankful that I ever heard of B. B. B. As I know what a blessing it has been to me, I have suffered with Bronchial Cough for a number of years. Six months ago I was taken with severe pain in right ear, which in a few days began to discharge matter, with terrible and almost unbearable palpitation and all sorts of noises in my head. In ten days after the commencement of discharge and pain in my ear I began to grow deaf and in six weeks I was so deaf that I could not hear thunder.

I was then compelled to use conversation tube, and it was often that I could not hear with the tube. I then commenced taking B. B. B. and the running of my ear ceased in five weeks, and I can now hear without the tube. My general health has improved, palpitation ceased, and feel like a new being, and appreciate the benefit I have received from B. B. B. (made in Atlanta, Ga.) with gratitude to God and thankfulness to the Proprietors for such a medicine. I cheerfully recommend it to all who are afflicted with deafness and catarrh. Try it; persevere in its use and you will be convinced of its value. JOHN W. WEEKS, Superintendent DeKalb Pauper House, Decatur, Ga., May 1, 1886.

Bright's Disease.

I have been a sufferer from Kidney and Bladder troubles for several years. I have lately had what is termed Bright's Disease, and have had considerable swelling of my legs and shortness of breath. The urea has poisoned my blood also. I secured and am using (B. B. B.) Botanic Blood Balm, and find it acts *powerfully and very quickly*, and I am delighted with its effects. I had previously used a large quantity of various advertised remedies, and several eminent physicians also waited on me, but B. B. B. stands at the top. JOHN H. MARTIN, Rock Creek, Ala., May 4, 1886.

All who desire full information about the cause and cure of Blood Poisons, Scrofula and Scrofulous Swellings, Ulcers, Sores, Rheumatism, Kidney Complaints, Catarrh, etc., can secure by mail, free, a copy of our 32-page Illustrated Book of Wonders, filled with the most wonderful and startling proof ever before known. Trouble Ahead.

When the appetite fails, and sleep grows restless and unrefreshing, there is trouble ahead. The digestive organs, when healthy, crave food; the nervous system, when vigorous and tranquil, gives its possessor no uneasiness at night. A tonic, to be effective, should not be a mere appetizer, nor are the nerves to be strengthened and soothed by the unaided action of a sedative or a narcotic. What is required is a medicine which invigorates the stomach, and promotes assimilation of food by the system, by which means the nervous system, as well as other parts of the physical organism, are strengthened. These are the effects of Hostetter's Stomach Bitters, a medicine whose reputation is founded firmly in public confidence, and which physicians commonly prescribe for indigestion and other troubles. It is used with the best results in fever and ague, anæmia, biliousness and other troubles, and which physicians commonly prescribe for indigestion and other troubles. It is used with the best results in fever and ague, anæmia, biliousness and other troubles.

A Grand Record.

We call your attention to the advertisement of a remedy which has stood the test of more than a half century with increasing popularity and is universally admitted to have no equal as a remedy for the cure of diseases originating in a disordered Liver, such as Dyspepsia, Biliousness, Constipation, Headache, Colic, etc. Simmons' Liver Regulator is simple and harmless, purely vegetable, and can be safely and advantageously used under any circumstances. It acts mildly and effectively, and is especially valuable as a Family Medicine, which position it holds in so many homes. We do not know another preparation which can bring forward such endorsements from heads of families and those holding the highest official and social positions. Keep Simmons' Liver Regulator in your house; it will reduce your doctor's bill and insure for your families health and happiness.

It seems strange, but it is nevertheless true, that the world contains people who will try to imitate, counterfeit or substitute something else for a genuine, meritorious article, even to the extent of making a spurious medicine, risking life and health, and it behooves every one to look that they buy only the Genuine. Zeilin & Co. have used the precaution to put on the front of each wrapper their trade-mark of a curved Z entwined around the mortar, and on the side the signature of J. H. Zeilin & Co. Frauds should always be denounced and the true remedies only upheld. 32-1m.

FRANKFORT ROUNDABOUT.

FRANKFORT, MAY 28, 1887.

Mr. James Heeneey will commence, in a few days, the erection of a two story brick building on the lot recently purchased by him, on the corner of Second and Shelby streets, of Mr. H. L. Watkins. The building is to be 25 feet front, running back 60 feet on Shelby, with iron and plate glass front, store-room below and residence above. Mr. Mike Buckley has been awarded the contract to put it up, at \$3,300.

We owe an apology to the ladies of the Methodist Church. A note was handed in requesting the announcement, in our last week's issue, of the Tea which was given on Thursday night. By some means it was mislaid and its contents unknown until after the paper was issued. We regret this exceedingly, as we always desire to accommodate the ladies.

Ice cold Soda Water, flavored with pure fruit juices, at the South Side Drug Store. 36

The Confederate soldiers' graves in the Cemetery will be decorated this afternoon at 5 o'clock. As there are eighty graves to be decorated, it is hoped that the contributions of flowers and evergreens will be very liberal. The ladies will please remember the hour and send flowers to the Cemetery by that time.

The celebrated superior Lawn Mowers, at rock bottom prices. 36 GRAY & CHURCH.

Dr. W. I. Kelly, of Cincinnati, will pay his regular monthly visit to this city on Saturday next, June 4th, and will be at the Capital Hotel on that day, as usual, for the treatment of patients suffering from any of the diseases he makes a specialty of treating.

Already our city is feeling the effect of the building of the Louisville Southern railroad. The contractors for bridging and trestle-work are sending here to obtain oak timbers for their work. A large amount of oak lumber that could not be otherwise utilized can thus be disposed of.

Blue Lick Water, fresh from the Springs, on draught at LeCompte & Carpenter's. 36

Miss Lucy Bush, of Lawrenceburg, has purchased from Mr. H. L. Watkins his residence on the corner of Shelby and Cross streets, for \$4,500 cash. Miss Bush has made a present of this property to her niece, Miss Todd Saffell, and she will obtain possession June 28.

Paints, oil, glass and brushes, at Gray & Church's. 36

Mr. W. H. Posey will, in a few days, begin the erection of a two story frame residence on the lot on the corner of Third and Main streets, recently purchased by him of Mrs. T. J. Chesnut.

Mr. Hugh Gaines has entered into partnership with Mr. N. I. McDaniel in the coal business, in stead of Mr. W. T. Gaines, as it appeared in our last issue.

"Clarion," Mrs. Tarlton's horse, won a race at Latonia on Wednesday.

The City Council, at its last meeting, fixed the assessment for the year 1887 at \$1.25 on each \$100 worth of taxable property.

From a cursory examination of the Assessor's Book, we find that the total amount of property returned as taxable is \$2,377,229. The total for 1886 was \$2,414,233, showing a decrease in taxable property of \$37,004.

Assessed at \$1.25 per \$100, this will produce \$29,715.36.

From the licenses the city obtains about \$10,000. From the lottery privilege about \$10,000.

The first of these items goes into the sinking fund to pay off the city debt, and the last is invested for the benefit of the school fund.

The city also received from the lessees of the Opera House \$1,486.95, and expended upon the same \$1,152.87, leaving a net revenue from that source of \$334.08.

The assessment by wards is as follows:

First Ward.....	\$968,398
Second Ward.....	602,046
Third Ward.....	751,185

Total.....\$2,377,229

The amount which will be at the disposal of the Council for the general running expenses of the city will be about \$24,000. This will be ample when we remember that the interest and principal of the debt is otherwise provided for, and the fund for running the schools is likewise provided for.

Taken all in all, the city's affairs are in good shape, and likely to remain so as long that clear-headed financier, Col. E. H. Taylor, jr., is the Mayor, who takes an honest pride in looking after the city's interests financially as well as commercially.

A sadly unfortunate accident occurred at the railroad depot in this city, on Friday afternoon last, at 4:30 o'clock. Mr. Wes. Chambers, a brakeman on the yard train, in attempting to get on the last car of a train that was being shifted, did not notice the proximity of the signal board, and was struck by it, just as he got on top of the car, and was hurled violently to the pavement. He was so badly crushed that he was unconscious until his release from pain at 12 o'clock, m., on Sunday. Every thing that surgical knowledge could do was done by Dr. W. H. Phythian, railroad surgeon, but all of no avail, and he sank gradually until death brought relief.

He was a clever and industrious man and leaves a wife to mourn his sudden call to the other shore. "Be ye also ready."

Mr. Peter C. Sower sold his new building on Main street, occupied by Messrs. Weitzel & O'Donnell to Louis Bettman, Marion S. Bloom, Sam'l S. Bloom, and Albert H. Bloom, of Cincinnati, for \$9,000 cash.

Now that the lock is repaired, the Houston Combs is bringing a large supply of coal to this city quite rapidly. So mote it be,

Horace Burdin, the little son of Mr. John Burdin, near the Forks of Elkhorn, while hunting the cows with his brothers, late Monday afternoon, became separated from them and was lost near the cliffs on the back part of Mrs. Trimble's farm. A large party of men and boys immediately started to hunt for him, but after searching, in a heavy rain, till 12 o'clock that night, were forced to stop without finding him. The alarm having spread, the whole community, men, women and boys, turned out en masse early the next morning to renew the search. He was finally found by Mrs. John Newman, in a blackberry patch, on the farm formerly owned by Dr. Butler, about 1 1/2 miles from home. The little fellow was very cold and terribly scratched up by the briars, but was otherwise uninjured. He was joyfully returned to his almost frantic mother.

Ladies who wish to purchase a guaranteed silk dress, in all shades as well as quality, would do well to visit Mrs. Sol. Harris' establishment, as she will certainly astonish you in low prices of black gros grain, all silks, from 75 cents to \$1.75 per yard, worth 35 per cent more, every yard guaranteed or money refunded. This is no empty boast, but facts. You will say, how can she sell so much cheaper than any other house; because she has bought them at an imported auction sale during her visit in New York. The dress goods stock in her establishment is complete from a canvas cloth for five cents a yard to an imported plaid or serge; trimmings to match. You certainly must see the round hats and bonnets, and you will imagine you are at Madame Prince's, in New York, as they are imported and no copies. It is well worth the trouble to call and examine the stock of Chantilla, Medici, Torchon and Oval Laces, also Hosiery and the endless amount of all kinds of Trimming, as you will be well paid in the profusion of fine goods and novelties.

Sheriff's Notice.

The tax books for Franklin county are now in my hands, and all persons are notified to come forward and settle their taxes for the year 1887. The new revenue law requires me to collect and pay over the revenue to the State before the first day of September next, and all not paid by that time will have six per cent. and costs added as a penalty.

Died.—Mrs. Georgiana Hawkins, at the residence of her son-in-law, Mr. W. G. Sargent, after an illness of eight months duration. Her sufferings, which at times were excruciating, were borne with a stoicism, calculated to impress all with the genuineness of true Christian fortitude. She leaves a large circle of friends and relatives to mourn her loss. The funeral services were conducted by Rev. T. N. Arnold. May the consoling influences of the Christian religion sustain in this hour of sadness, is the prayer of a friend.

We regret to notice a good deal of apathy in this neighborhood regarding the railroad. The people

seem slow to awake to their best interests. When, however, the enterprise is fairly afoot we hope to see them step boldly forward and take a position in the front rank with those who wish to hasten the prosperity of the county.

I have not heard of a single convert to the railroad since my last, but they are mellowing down some. It is hard to convince a man against his will. None of them can see any benefit to be derived from a railroad. They say "it would help only Frankfort, and they are in favor of Frankfort building it." Poor things, they can't see, by doubling the population of Frankfort, that we could have a better market for every thing we sell. For instance, eggs instead of being 6 or 8 cents, would be 20 to 25 cents per dozen, besides the tax on the railroad and its building would build at least 2½ miles of pike every year. For my part, I think we ought to have a little gratitude for the assistance that has been given us by all parts of the county in developing our section of the county.

We have now no less than three pikes all going in the direction of Jacksonville, Shelby county,

which, when completed, will make the said Jacksonville boom. By all means I say let us have the railroad and give the laboring man a chance for a day's work. "Oh! that my people would consider." Sec Fax.

The Sunday-school here was well attended last Sunday. Do our people ever consider that a Sunday-school, either in town or country, gives such a stamp of respectability to the neighborhood that nothing else can?

"I don't think it right for a man as owns no property nowhere to vote a tax on a man what does." Very well, neither is it right to ask us to believe what you don't believe yourself. Several times the Ridge correspondent has tried to show that the tax don't come out of property owners, it comes out of the improvement placed on that property, which is always the result of labor.

On Tuesday evening, about 4 o'clock, the Houston Combs with a barge of coalin tow struck a snag in the river above Hatchett's old mill. The snag tore the bow of the barge nearly out. They finally reached the bank, and with the assistance of the Grace Morris and the Monongahela, succeeded in saving the barge. This is the same snag that nearly wrecked one of the barges of the Steamer Excel, some time last winter.

The U. S. Snag Boat, Kentucky, has now removed the snag which should have been removed after the Excel's experience with it. Then the accident to the Combs Tuesday would have been avoided.

The district institute of the Baptist Church met here this week, and had some very important subjects under consideration. The hottest discussions was on the subject, "Can a man be saved without water baptism?" It was decided that water baptism was not essential to salvation. So say we. The whole institute visited the public school in a body. We are sorry to say that, among all the topics of the institute, there was not a single paper read on education. The most important and best handled subject was a scientific lecture on temperance, by Rev. A. Barry, of Louisville. Taking everything in consideration, the members of the institute did very well.

The contract for building the Normal School has been let out and work commenced. Now we, say to those who promised the City Council so faithfully that if they (the Council) would furnish the land they would build the road to said building, come on and let's go to work. Those that can't work give us the money. Prof. Wm. H. Mayo has resigned as Secretary, and Rev. G. H. Burks has been elected as Secretary, to keep the time and account of those who help make the road.

Now friends, let us go ahead and make that little short road to the Normal School grounds and fulfill our promises. Surely if you could have built a road over a mile long, you can build one now only 300 yards long. So let's build it and say no more about it until W. O. Bradley is elected Governor, and Gen. S. B. Buckner appointed Commanding General of the State Militia of Kentucky.

The best fish to be caught in the country are at Stedman's dam. If you don't believe it, ask our golden-haired young man.

LOST.—Between Mr. H. L. Watkins' residence and the saw-mill of P. S. Itule & Co., a pair of gold spectacles in a case. A liberal reward will be paid for their return to this office.

The Best Method.

The most agreeable as well as the most effective method of dispelling Headaches, Colds and Fevers or cleansing the system is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs. It acts gently yet effectively, strengthening the organs on which it acts, so that regular habits may be formed. Manufactured only by the California Fig Syrup Co., San Francisco, Cal. For sale in 50 cent and \$1 bottles by CHAPMAN & GAYLE.

Wonderful Cures.

W. D. Hoyt & Co., Wholesale and Retail Druggists, of Boone, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by Jos. LeCompte.

THE FINE HOLSTEIN FRIESIAN BULL

Aggie Jessie's Netherland

WILL BE PERMITTED TO SERVE A LIM-
ited number of cows during the season of 1897 at my farm, on Green turnpike, one mile from Frankfort.
Aggie Jessie's Netherland (B. F. H. B., vol. 1, No. 87) comes from two of the best families of his race, whose record, both for milk and butter, is as good as that of any breed or family of cattle known. He is of fine size and well formed, and is in excellent condition. Terms for the season (due at time of service), \$5.00.

WILL MAKE THE SEASON OF 1897 AT MY farm, two miles from Frankfort, on the L. & N. R. R. at

\$25 TO INSURE A MARE IN FOAL.
Money due as soon as the fact is ascertained on the mare paired with.

DESCRIPTION AND PEDIGREE.

BAYWOOD is a beautiful bay, 15 hands and 8 inches high, with a fine black mane and tail, and can show a 2½ gal. with only a few weeks' milking. His colts have already proven to be not only fine looking, but trotters. He is the champion horse ever stood in Franklin county.
BAYWOOD (Standard Rule 7). Bay stallion: foaled 1891. Sired by Harvard (sire of Maid B., 2:08½; Nonette, 2:20½, etc.). 1 dam Kate, by Woodford Hambrino, 2:4½ (sire of Abbottford, 2:39½). 2 dam Lucy, by J. W. Woodford, son of Alexander's Norman, (sire of Lulu, 2:1½; May Queen, 2:30). 3 dam by thoroughbred son of imported Sovereign, dam (sired by the late R. A. Alexander) by Old St. Lawrence.

The Board of Magistrates meet at the Court-house at 10 o'clock this morning to vote upon the question of submitting the proposition of subscribing \$150,000 to the capital stock of the Paris, Georgetown & Frankfort Railroad Company.

Hon. W. O. Bradley, Republican candidate for Governor, will address the people of this county at the Court-house on Saturday evening next, June 4th.

Post-office to be Closed.

In obedience to orders received from the Postmaster General, the post-office in this city will be closed between the hours of 11 o'clock, a. m., and 5 o'clock, p. m., on Monday, it being the National Decoration Day.

The jury in the case of Wm. Patterson, the Jennie Bowman murderer, were only out twelve minutes in making their verdict, which was "guilty." A stay of proceedings and a new trial has been asked. Arguments will be heard to-day by Judge Jackson on that motion.

At the last session of the Grand Commandery of Kentucky, Sir Knight John W. Pruett, of this city, was promoted to Grand Prelate, the next office higher than the one he then held, that of Grand Senior Warden. The office is one that dignity that pertains to it. We hope, in a year or so more, to greet him as Very Eminent Grand Commander of Kentucky.

When a house in South Frankfort, three squares from the bridge, takes fire the occupant or owner expects nothing else but that it will be burnt to the ground, because by the time the alarm travels all over that side of town and finally reaches the Engine House by way of Arsenal Hill, it is too late for the fire department to get there and do more than save the adjacent property, and still our wise city fathers say we do not need a fire alarm system. And now the telephone has been removed from the Engine House for fear an alarm might come in suddenly by that route. Oh, most wise and enlightened statesmen, buy us another steam fire engine to be kept as an ornament. It will be so nice to fill up processions on public occasions.

Ho! for the railroad!

G. A. R.

Programme of Albert G. Bacon Post for Monday, May 30th, 1887.

All the members of the Post and others wishing to participate, will meet at the Odd Fellows' Hall, Monday, May 30th, at 3 o'clock p. m. (sharp), and from there will march to the cemetery at 4 o'clock precisely.

Past Commander, Gen. D. W. Lindsey, will read the memorial services. The Rev. G. F. Bagby will offer prayer, after which a salute will be fired. A committee of ladies and members of the Post, under the direction of the officer of the day, will decorate the graves of our departed comrades. The singing will be under the direction of Mr. S. C. Bull.

Every body is cordially invited to attend. By order of Commander,

A. B. NORWOOD.
V. BERBERICH,
Adjutant.

Judge F. T. Fox, Prohibition candidate for Governor, spoke at the Court-house on Tuesday evening.

Hon. George R. Wendling, of Illinois, will deliver a lecture at the Opera House in this city, on Friday evening next, June 3d, subject "Stonewall Jackson." Mr. Wendling is well known to our people as an eloquent speaker, and will doubtless have a large audience. His wife will accompany him to this city, and they will remain several days, the guests of Rev. E. A. Penick.

OVER-PRODUCTION IN WHISKY AND ITS REMEDY.—Mr. E. H. Taylor, Jr., called to see us during the fortnight. Mr. Taylor is a man of great ability and extraordinary energy, and as little likely to require the assistance of an organization to restrict production as any distiller in the State; and yet in reply to a question as to whether he would go into such a movement he replied, "Yes, I am in favor of restricting production by all means, and while we have had no difficulty in disposing of our limited '87 crop, I see the necessity for curtailing as an interest, and will willingly sign an agreement not only to cut down in '88, but one not to operate at all." *Monfort's Wine and Spirit Review*, May 25.

Hnrrah for the railroad!

Harp.

A little warm at present.

The corn crop is looking well.

We are glad to hear that Aunt Sallie Harrod is improving after a severe illness.

Mr. O. B. Polsgrove has completed his turnpike, and is ready for the commissioners to come and receive it.

Mr. Jno. H. Scott, who is travelling for N. Greer & Co., of Louisville, has come home for a few weeks' visit.

While Mr. James H. Polsgrove was hauling gravel on the turnpike, last week, the horses, four in number, took fright and ran off with him throwing him off and giving him several severe bruises and spraining one ankle, no other serious damage more than tearing the wagon to pieces.

While returning from Frankfort on Saturday Messrs C. R. and Peter Brawner got into a difficulty and passed several hard blows but doing no serious damage more than tearing down some of J. M. Polsgrove's yard fence and slightly spraining one of the latter's arms, red eye being the cause.

Died.—At Harper's Ferry, on Friday, May 27th, Mr. Zeke Yocum, from the relapse of the itch, his remains will be interred in the grave yard at the Stone Kitchen on next Lord's day. He leaves a wife and seventeen children to mourn his loss.

Mr. F. M. Conway, the President of the F. & F. C. turnpike, came down last week and moved Dock Lewis' tobacco patch off the pike. The people of this community can now travel on the pike for the first time in a year. If there is any toll due on this end of the road, we would like to know why, for it has been impossible to travel on the pike when the mud was from three to ten inches deep.

Bufordstown.

Everybody busy plowing corn. Measles and mumps are all the go.

Mr. S. Buford has his hands full to wait on his customers.

John Hamilton, the next sheriff, was visiting here this week.

Mr. Morgan Harrod is very sick with pneumonia.

Mr. Dave Hall talks of moving to New Castle. Sorry to lose you, Dave.

W. C. Bryant and Owen Quire are camped at Conway's Mill to fish for a week. Farewell fish!

Thomas Quire is done planting corn. He says he planted the seventh part of two acres.

Mr. Green Berry Gambo has bought Mr. John Sheets' farm for \$800.

Dave Moore killed 28 ground squirrels, two gray ones, seven woodpeckers, four crows and a young rabbit. It was not a very good day for hunting either.

We heard such a good joke on one of our Benson friends we will have to tell it. He went to town and some candidate gave him a jug of O. H. C. As he came home, old Logan fell down and broke the jug, and he jumped up and said "dar den, I swar I have lost all my O. N. T." Now boys don't plague Esq. Dan about this, for I did not say it was him. Besides I promised him not to call names.

The writer visited Snipesville last week and found the dude just leaving for Lawrenceburg. Look out girls or you will catch a snipe. We found Jack Greenwell, like all other good workmen, with more work than he could do. The only trouble is the election of a School Trustee. Things red hot and still heating. Come out Col. Tom and pour some oil on the troubled waters.

Bald Knob.

Miss Henrietta Allen is visiting her uncle at Antioch.

Miss Cinthy Sanford has been quite ill, but is now convalescent.

Mr. Urban and sister, Miss Bella, left on last Thursday on a pleasure trip to Harrodsburg.

Our doctors appear to be very busy, to judge from the amount of riding some of them do.

Mr. Lem Wentworth lost a mare, on last Sunday, by a cow hooking her so badly she had to be shot.

The turnpike commissioners should visit Bald Knob and inspect the pike, especially this side of the hill. They will surely find something to do.

Those that went from here to see Barrett's show, came back very little wiser than when they left. Jo-Jo and the little bicycle rider were the chief attractions.

The stone blind lady that the Flag Fort correspondent says has had her eyesight restored so she can thread a darned needle, has never been so but what she could thread a needle and knit. Does not need sight for it. If any one has a doubt they can go and see for themselves.

This is a dull place. I have fears for its future, unless something can be done to arouse its dormant faculties. Can not the young friends rouse themselves, get up some kind of amusement to pass off time and give a lively air to the place? Why not some kind of a literary circle, that will be entertaining and a help to our community? We will do our part. So friends let us make an effort at least.

Stoney Creek.

Rain and mud are all the go out in the country.

The Misses Shackelford were guests of Mr. A. J. Greenwell and family Monday.

Mr. Milton Moore visited Louisville Wednesday with tobacco—price, 7, 9, 10½ and 16 cents.

Well, Uncle Zeke, your dear cousin is in Lawrenceburg, and will take your picture if necessary.

The Snipesville dude passed through our village on Friday en route for Lawrenceburg with his art gallery.

Mr. Bug. Moore and Mr. Farris LeCompte have gone to Anderson county to follow the saw-mill business, as it is their trade.

Mr. A. J. Greenwell says the price paid for Cook's calf was the same the Snipesville dude received for his long yearling.

We are visited with a party from the city of Frankfort on our creek, who are too polite to ladies they pass. They are young ladies and gents.

Col. David Moore was in our midst last week, supposed to be looking up a chance for the measles.

Our Sunday-school is attended by a large audience every Sunday. School at 4 o'clock.

Bro. Burdin visited our school on Sunday last. He is a good talker as well as a singer.

Dr. James B. Duncan has located in our village, and we wish him success, as he is a darling as a physician.

FRANKFORT ROUNDABOUT.

EDUCATIONAL.

After an absence of two weeks we again resume our work in this column.

Can a political party afford to put itself squarely against popular education?

Let every voter remember that next Saturday, June 4th, is the day for electing school trustees. Select the best men in your district for the position, regardless of their religious or political creeds. Elect "Educational Men."

We have always believed that whenever politicians undertook to run the schools they would make a botch job out of it, and we are now convinced of it. Every school office should be separated from politics.

We visited some of the Tennessee schools, during our visit to that State, and were very much pleased with them. It would pay some of our teachers to visit the schools, not only in this but in other States. We have much to learn and much to unlearn.

Our kind Editor has agreed to give one column of his paper to be known as the "Children's Corner." How many of our little friends will assist us in this matter? Come children let us try and make this the happiest corner of the paper. Look out for the next paper.

The second Saturday in June is the time for the regular meeting of the Franklin County Teachers' Association. Come, fellow teachers, let us prepare for the next school year. We wish to see every teacher in the county at that time, as we have matters of importance to lay before them. Let every one of them be present at our next meeting at the city school building.

Our friend, Prof. Tracy; must excuse us for not answering his generous invitation as we did not see it until our return from Tennessee. We will certainly accept, and as soon as we get things straightened out, will let you know when; but please don't call out the "Brass Band" and "Military" companies, but rather have the people, especially those beautiful ones you seem to go into ecstasies about.

We, in company with Col. T. B. Ford, attended the Lawrenceburg Educational Meeting last Saturday. The Court-room was crowded and much interest manifested. It was said to be the best meeting of the kind ever held in Anderson county. We, assisted in organizing a County Teachers' Association. There were a large number of the county teachers present and all felt interested. We heartily thank them for all their words of cheer and the compliments bestowed upon us, and only wish we were more deserving of them. Col. Ford made a powerful speech and was applauded several times—subject, "Compulsory Education."

COUNTY SUPERINTENDENT.

Greatly Excited.

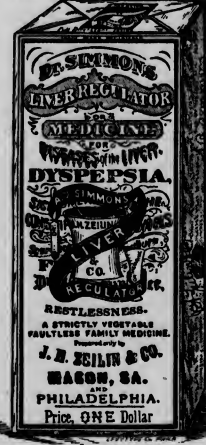

Not a few of the citizens of Frankfort have recently become greatly excited over the astounding facts, that several of their friends who had been pronounced by their physicians incurable and beyond all hope—suffering with that dreaded monster Consumption—have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat and lung diseases, Coughs, Colds, Asthma and Bronchitis. Trial Bottles free at Jos. LeCompte's Drug Store. Large size bottles \$1.00.

The Rev. George O. Barnes arrived in the city yesterday morning, and is stopping with his son, Rev. William C. Barnes, at No. 925 Fourth avenue. Last evening, he said: "I have come from Tupelo, Miss., where I have just concluded

a protracted meeting, which lasted all winter, and was very successful. I have no engagements to preach in this city, and I am taking a little rest from my labors. I will be here about a week, and then I shall make a visit to Georgetown."—*Courier-Journal*, May 19.
